Talk to Coastal

Another view of your room.

A complementary perspective on your chosen design.

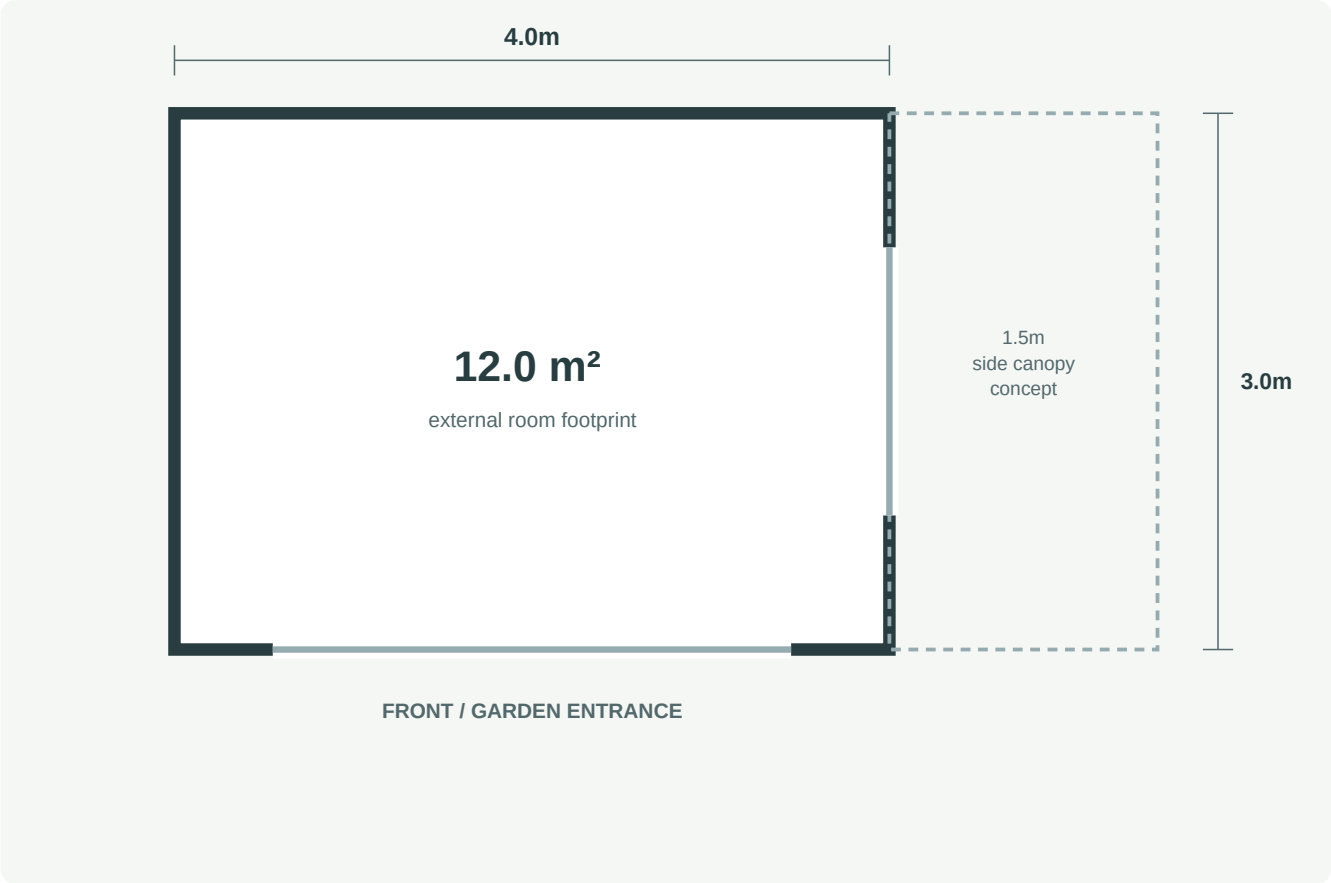

The same building, viewed from the other side. The setting, furnishings and finishes are illustrative; the final specification is agreed with Coastal.

YOUR ROOFLINE	TIMBER FINISH	YOUR ENTRANCE
Pent roof	**Garden sage**	**Bifold doors**

Keep exploring: the following plan and specification set out the external dimensions, opening preferences and selected options.

A space that fits your life.

Review the shape, light and access before discussing the exact fit with Coastal.

External room dimensions. The canopy is additional when selected. Internal usable space will be smaller. This plan is indicative and not to scale or for construction.

Your entrance	Bifold doors; final opening size, position and handing to be confirmed.
Side windows	Right side. Left and right are viewed from the garden, facing the entrance.

Bring your furniture sizes and preferred garden views to the design conversation. Coastal can help balance light, privacy and useful wall space.

Every choice, in one place.

Your selected concept specification - ready to refine with a Coastal specialist.

How you will use it	Work & focus
Building system	Log cabin
External size	4.0m wide x 3.0m deep; 12.0m² room footprint
Roof	Pent roof; final height, drainage and covering to be confirmed
Exterior preference	Garden sage; exact finish, treatment and colour are agreed from samples
Doors & windows	Bifold doors; right side
Side canopy	1.5m side canopy requested; final structure and base scope to be confirmed
Insulation	No insulation requested. Ask Coastal about options for your intended use.

Interlocking timber construction. The final wall thickness and full specification are agreed with Coastal.

Your investment, made clear.

A realistic starting conversation. Your final specification and price are confirmed by Coastal.

INDICATIVE SUPPLY BUDGET, INCLUDING VAT

£8,200 - £12,600

BUDGET ALLOWANCES

Paint / treatment allowance	**£725 - £1,350**
Side canopy allowance	**£1,325 - £2,725**

QUOTED SEPARATELY FOR YOUR GARDEN

Assembly and installation; delivery; a suitable base and site preparation; mains electricity and any plumbing; final glazing, treatments and requested upgrades outside the confirmed supply scope.

Unpromoted Lugarde 44mm log-cabin shell references: 3×3m £3,730; 4×3m £4,495; 5×3m £5,440, researched 11 October 2026. Other dimensions and systems use an indicative model. Floor and doors use source reference rates; side glazing, treatment and canopy are provisional allowances. Delivery, assembly, bases, electrics and heating are excluded. No promotional discount assumed.

This guide is an indicative budget range, not a fixed-price offer. VAT is included in the displayed ranges. Coastal confirms availability, buildability, exact scope, current prices and terms before you order.

Ready for your garden.

A few practical details will help Coastal turn your starting design into the right proposal.

Measure desks, chairs and storage. Leave room to pull a chair back and plan power, internet and a comfortable working temperature.

01

Space & boundaries

Measure the available garden space, distance to boundaries and any slopes. The dimensions in this guide are external.

02

Access & delivery

Note gate widths, steps, narrow passages and the route from the road to the garden. Coastal confirms the delivery and installation approach.

03

A suitable base

Discuss a level, load-bearing base and any site preparation. Existing bases and ground conditions need review.

04

Power & year-round use

Tell Coastal about electricity, internet, heating or cooling needs. Insulation and mains connections are confirmed in the final scope.

05

Planning & permissions

Requirements depend on your site, location, size, height and intended use. Check the appropriate permissions and approvals before ordering.

This concept is a garden building design. Sleeping accommodation or other specialist uses need a separate suitability and permissions review.

Let’s make it Coastal.

Bring your ideas. We will help you work through the practical details.

Your next step: a design conversation.

Talk through the room, your garden, the supply and assembly options, and the route to a written dealer quotation.

01

Explore your design

Review the dimensions, construction system, glazing, finish and how you plan to use the space.

02

Confirm the details

Agree site requirements, delivery, base, assembly, selected upgrades and the final specification with Coastal.

03

Get your written quotation

Coastal confirms current availability, exact prices, payment terms and the delivery or installation arrangements.

SEE THE BUILDINGS. TALK THROUGH YOUR IDEAS.
